“ARTS ALIVE! brings so much joy into my son's life. No matter who I have ever seen teaching ARTS ALIVE!, I can tell that you all have a genuine love for what you do and that you all put your hearts into it. It is so apparent how much care you take when hiring your teachers. I can tell that everyone there loves what they do.”

“ARTS ALIVE! has been a positive influence on my children and their creativity. Their creativity in problem solving, and even just the way they view their world, has blown us away. Using music and movement in learning new things has shown to be quite effective in making the information stick. I consider their time in ARTS ALIVE! to be just as valuable, if not more valuable, than their time in math, history, reading, or science.”

ARTS ALIVE! unlocked my children's imagination and led them on a journey of self-expression through movement, song, dance, and costuming. It's a path that creates joy and will serve them well for a lifetime.”

“My 6-year old daughter has been doing ARTS ALIVE! since she was 3, and this year, her school offered it after school. She looked forward to it every week, and I loved seeing her face light up when I asked her what she did in ARTS ALIVE! We were rock stars today! We were pirates! I love seeing my daughter love something so much, especially when it involves music, movement, creative thinking, and social skills. I also love knowing that ARTS ALIVE!'s approach has academic underpinnings. There are a lot of charlatans in the world of extra-curricular programming, and it's good to know that the ARTS ALIVE! instructors really know what they're doing!”

“My daughter has devoured the class. ARTS ALIVE! is a huge deal in our lives and I am very grateful.”

Sharon Sanborn
Parent

“We always know when it's been an ARTS ALIVE! day at our son's school because it's the first thing he tells us when we ask him about his day. His smile and eyes beam at us as Luke (4) describes what you had in store for his class that day. This is a great program led by wonderfully caring instructors.”

Patricia Carter

"After being an ARTS ALIVE! student for four years, Sarah gained the confidence for self-expression and physical ability to excel in soccer, ballet and musical theatre."

“ARTS ALIVE! is something real.

It’s not a script. It’s what you feel.

The magic made inside this place

Is putting smiles on every face.

A smile, so rare, today it’s true . . .

And that’s what led me straight to you.”

Winter Wallace

“Why can’t every extra-curricular be like ARTS ALIVE! The kids listen so intently to what you say.”
